## System - Controlled\_HWR

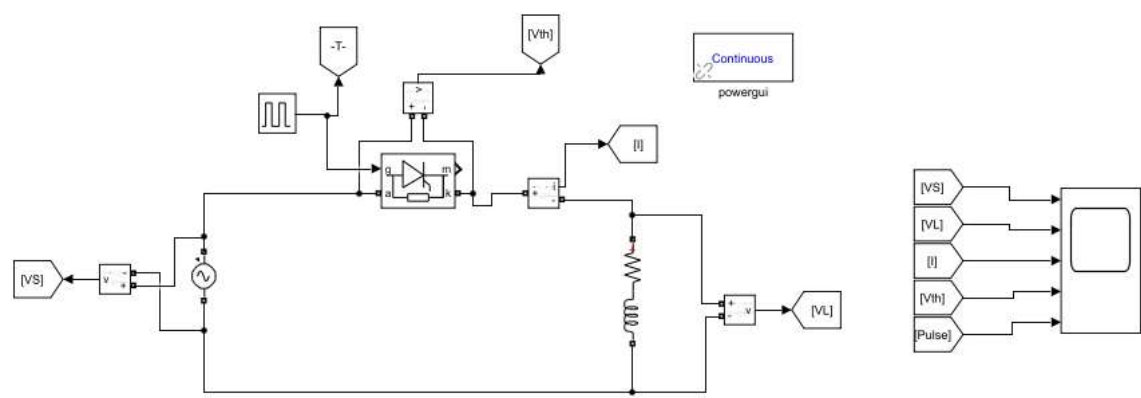

Table 1. AC Voltage Source Block Properties

| Name | Amplitude | Phase | Frequency | Sample Time | Measurements | Bus Type |
|------|-----------|-------|-----------|-------------|--------------|----------|
|      |           |       |           |             |              |          |

| Name              | Amplitude | Phase | Frequency | Sample Time | Measurements | Bus Type |
|-------------------|-----------|-------|-----------|-------------|--------------|----------|
| AC Voltage Source | 63.6      | 0     | 60        | 0           | None         | swing    |

Table 2. Current Measurement Block Properties

| Name                |
|---------------------|
| Current Measurement |

Table 3. DiscretePulseGenerator Block Properties

| Name            | Pulse Type | Time Source         | Amplitude | Period | Pulse Width | Phase Delay | Sample Time |
|-----------------|------------|---------------------|-----------|--------|-------------|-------------|-------------|
| Pulse Generator | Time based | Use simulation time | 1         | 1/60   | 60          | .00324      | 1           |

Table 4. From Block Properties

| Name  | Goto Tag | Icon Display | Goto Blk Name         | Goto Blk Location              | Defined In Blk                  |
|-------|----------|--------------|-----------------------|--------------------------------|---------------------------------|
| From  | VL       | Tag          | <a href="#">Goto</a>  | <a href="#">Controlled_HWR</a> | do not delete this gain         |
| From1 | VS       | Tag          | <a href="#">Goto2</a> | <a href="#">Controlled_HWR</a> | do not delete this gain         |
| From2 | Vth      | Tag          | <a href="#">Goto3</a> | <a href="#">Controlled_HWR</a> | do not delete this gain         |
| From3 | I        | Tag          | <a href="#">Goto1</a> | <a href="#">Controlled_HWR</a> | do not delete this gain         |
| From4 | Pulse    | Tag          | <a href="#">Goto4</a> | <a href="#">Controlled_HWR</a> | <a href="#">Pulse Generator</a> |

Table 5. Goto Block Properties

| Name  | Goto Tag | Icon Display | Tag Visibility | From Blk              | From Blk Location              | Used By Blk                  |
|-------|----------|--------------|----------------|-----------------------|--------------------------------|------------------------------|
| Goto  | VL       | Tag          | local          | <a href="#">From</a>  | <a href="#">Controlled_HWR</a> | Scope1                       |
| Goto1 | I        | Tag          | local          | <a href="#">From3</a> | <a href="#">Controlled_HWR</a> | Scope1                       |
| Goto2 | VS       | Tag          | local          | <a href="#">From1</a> | <a href="#">Controlled_HWR</a> | Scope1                       |
| Goto3 | Vth      | Tag          | local          | <a href="#">From2</a> | <a href="#">Controlled_HWR</a> | Scope1                       |
| Goto4 | Pulse    | Tag          | local          | <a href="#">From4</a> | <a href="#">Controlled_HWR</a> | Data Type Conversion, Scope1 |

Table 6. PSB option menu block Block Properties

| Name     | Simulation Mode | Iterations | Frequency | indice | Pbase | Err Max | Units V | Units W | Function Messages | Echomessages | Current Source Switches | Disable Snubber Devices | Disable Ron Switches | Disable Vf Switches | Display Equations | Method | Delta |
|----------|-----------------|------------|-----------|--------|-------|---------|---------|---------|-------------------|--------------|-------------------------|-------------------------|----------------------|---------------------|-------------------|--------|-------|
| powergui | Continuous      | 50         | 0         |        | 100e6 | 1e-4    | kV      | MW      | off               | off          | off                     | off                     | off                  | off                 | off               | off    | b     |

Table 7. Series RLC Branch Block Properties

| Name              | Branch Type | Resistance | Inductance | Seti L0 | Measurements |
|-------------------|-------------|------------|------------|---------|--------------|
| Series RLC Branch | RL          | 10         | .015       | off     | None         |

Table 8. Thyristor Block Properties

| Name      | Ron   | Lon | Vf  | IC | Rs  | Cs     | Measurements |
|-----------|-------|-----|-----|----|-----|--------|--------------|
| Thyristor | 0.001 | 0   | 0.8 | 0  | 500 | 250e-9 | on           |

Table 9. Voltage Measurement Block Properties

| Name                 |
|----------------------|
| Voltage Measurement  |
| Voltage Measurement1 |
| Voltage Measurement2 |

Appendix

Table 10. Block Type Count

| BlockType                 | Count | Block Names                                                                                                          |
|---------------------------|-------|----------------------------------------------------------------------------------------------------------------------|
| Goto                      | 5     | <a href="#">Goto</a> , <a href="#">Goto1</a> , <a href="#">Goto2</a> , <a href="#">Goto3</a> , <a href="#">Goto4</a> |
